Disclaimer

This document has been produced for informational purposes only and does not constitute, and is not part of an offer to sell or subscribe, or a solicitation to buy or subscribe for shares of the funds; nor shall it form the basis of, or be relied upon in connection with, any contract or commitment whatsoever, nor be taken as investment advice. No action has been taken which would permit the public offering of the shares of the funds in any other jurisdiction other than those mentioned in the current document where such action would be required, including without limitation, in the United States, to US persons (as defined by Regulation S of the US Securities Act of 1933 as amended) or in the United Kingdom. This document should not be passed to any person for whom the funds are not authorized for sale. We provide this document without knowledge of your situation. Prior to contracting with you, a suitability test will be performed. Prior to any subscription, investors should verify the conditions and all local legal constraints or restrictions there may be in connection with the subscription, purchase, possession or sale of the shares of the funds. Investors considering subscribing for shares should read carefully the most recent prospectus of the funds and consult the funds' most recent financial reports. Applications may only be made on the terms and conditions contained in the prospectus. The prospectus of the funds and the latest semi-annual and annual reports are available on request from BNP Paribas Asset Management, 5 Avenue Kleber, 75116 Paris and AXA Investment Managers, Coeur Défense Tour B - La Défense – 4 100, Esplanade du Gal De Gaulle 92392 Paris La Défense Cedex or from the website www.easyetf.com. Investors should consult their own legal and tax advisors prior to investing in the funds. Given the economic and market risks, there can be no assurance that the funds will achieve their investment objectives. A decrease in the prices of stocks comprising the reference indices may result in a decrease in the funds' net asset value, and accordingly the value of the shares may go down as well as up. The funds are only suitable for investors who understand the risks involved.
